---

I am a passionate front-end developer with a strong skill set in design and problem-solving. Proficient in HTML, CSS, JavaScript, React.js and Redux-Toolkit. I strive to create visually appealing and interactive user Interfaces. With a disciplined approach, I excel in writing clean code and optimizing performance, I am enthusiastic about leveraging frameworks like React.Js to build dynamic web applications. As a motivated professional, I bring a combination of creativity and technical expertise to deliver exceptional front-end solutions.

## EDUCATION

---

## PERSONAL PROJECTS

---

**Ecommerce App.** I developed a e-commerce website, overseeing its conception, design, and implementation. Leveraging my expertise in fronted development, I crafted an intuitive user interface using HTML, Tailwind CSS (CSS Framework), and React (JavaScript Framework), ensuring seamless navigation and responsiveness across various devices, On the back end, I demonstrated proficiency in Firebase. ([Link](#))

**Weather App.** I developed a weather app using HTML, Tailwind CSS, and React.js, featuring real-time weather updates for global cities. React-Router DOM facilitated page navigation, while Axios handled API integration for seamless data fetching. Utilizing React Infinite Scroll, the app loads content as users scrolled, enhancing usability. This project highlights my proficiency in frontend development, API integration, and user-centric design, showcasing my ability to create impactful software solutions. ([Link](#))

## EXTRA-CURRICULAR ACTIVITIES

---

**IJAEM (2023).** Published a Paper in IJAEM

**ICAMsnt (2023).** Present a paper at the International Conference on Advance in Modern Science and Technology

**Technical Fest(2023).** T. John Institute of Technology Awarded a 1st Prize in Intra College Technical Fest.
